

# Big Pine Community Park

## Suggested Activities Survey Results

As of August 9<sup>th</sup>, the Planning and Environmental Resources Department has received 966 surveys by mail and e-mail, an estimated 38.64% return rate. We also received a number of letters regarding the development of the park and included these comments with the survey results, when possible.

The following graph illustrates the survey results regarding the boat basin.

The survey suggested a number of active and passive activities and amenities that were generated at a public meeting on July 8, 2002. The following table indicates the **percentage** of respondents who favor the suggested activity or amenity.
